NOTES:

- 1 **Transfer Vehicles** are used to transfer large quantities of solid waste to disposal sites
- 2 **Packer Garbage Trucks** are used to collect municipal solid waste and typically compact it after each collection
- 3 **Recycling Trucks** are used to haul recyclable materials (instead of garbage) such as yard waste, plastic, paper, aluminum, etc.
- 4 Vehicles with "**Roll-off Bin**" functions are typically used at construction sites for construction/demolition materials or other solid waste
- 5 Provide details if vehicles are permitted to haul something **other than** solid waste or recyclables - include vehicle type count and specify waste type.
